Alice Group has become a new member at ShareLab in Oslo Science Park

“Alice Group is excited to be part of the vibrant community at Sharelab in Oslo Science Park.”

ShareLab is a launchpad for entrepreneurs and start-ups aiming to develop new products and services based on life science and biotechnology. This is a community providing a complete range of biotech innovation services which includes access to a fully equipped and managed lab, with workbenches and special functions rooms. ShareLab is Oslo’s new biotech incubator and opened officially March 21st by prime minister Erna Solberg.

Alice Group is a Biopharmaceutical Company conducting research and development on bioactive compounds from microalgae for medical purposes, develop novel anti-cancer medicine, fish vaccine, fish feed and cosmetics.
